

# DEPARTMENT OF ANATOMY AND NEUROBIOLOGY

---

**John Povlishock, Ph.D.**  
Professor and chair

[anatomy.vcu.edu \(http://www.anatomy.vcu.edu/\)](http://www.anatomy.vcu.edu/)

The Department of Anatomy and Neurobiology offers neuroscience education for Ph.D. students and exciting research opportunities for postdoctoral scientists that span cellular to systems neuroscience. The department houses a large number of the university's neuroscientists and maintains dynamic research groups in glial cell biology, plasticity, development and circuitry, and central nervous system injury and repair.

Students who complete the requirements for this degree will receive a Master of Science in Anatomy and Neurobiology.

- Anatomy and Neurobiology, Master of Science (M.S.) (<http://bulletin.vcu.edu/graduate/school-medicine/anatomy-neurobiology-ms/>)
