The Department of Human and Molecular Genetics provides multifaceted research activities focusing on important areas of current medical and basic research. Our faculty members conduct research and clinical and educational activities at the VCU Medical Center, the Virginia Institute for Psychiatric and Behavioral Genetics and the VCU Institute of Molecular Medicine. Genetic counselors and medical genetics faculty conduct their outpatient counseling, medical genetics practice and inpatient pediatrics service at the VCU Medical Center and affiliated outpatient clinics.

Students who complete the requirements for this degree will receive a Master of Science in Genetic Counseling.
